AUDIENCE

Additional requirements not shown above

- Boom stands = 3 short (tabla), 7 tall (includes the one to hang bells)
The short stands are as shown above; the others are tall.
- 4 Black music stands
- 1 small percussion table approx the size of a piano bench
- 1 armless chair for the erhu

Preferences:

- Individual monitor mixes - at least for the lead vocalist (If there is time).
- Lots of both tabla mics in all monitors.
- The bass tabla (right side from the audience's view) should provide the low end for the band and should be present and punchy in the monitors and Mains. No reverb on tabla.

Note: This is the requirement for outdoor and large theatre spaces, for smaller indoor venues, fewer microphones are required. Please contact us to discuss about the details.
